

AEM TASK – 9 (final task – Padmesh G)

Newsroom Portfolio

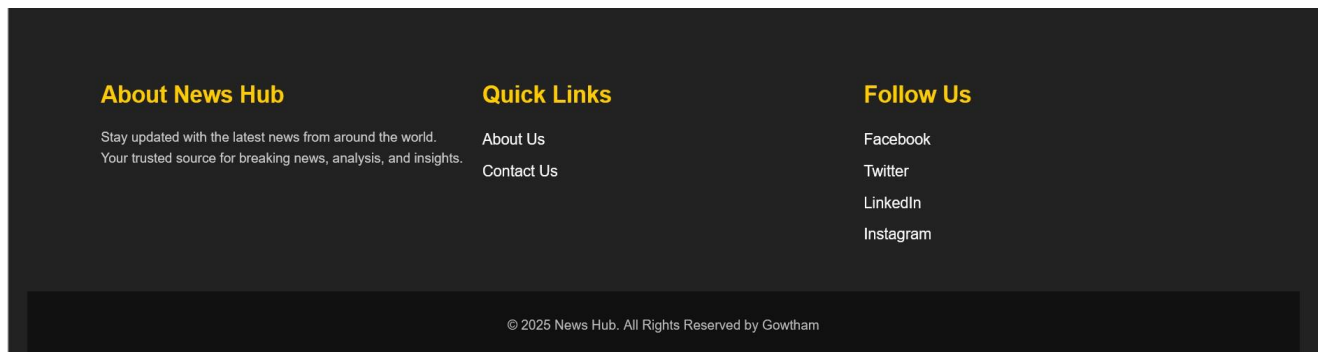

1. Header Configuration

- Used the **OOTB header component**.
- Created the following menu items in the header:
 - **Home**
 - **News**
 - **About Me**
 - **Contact Me**
- Styled the header appropriately to maintain a professional look.
- Implemented various news pages that displays the latest articles.

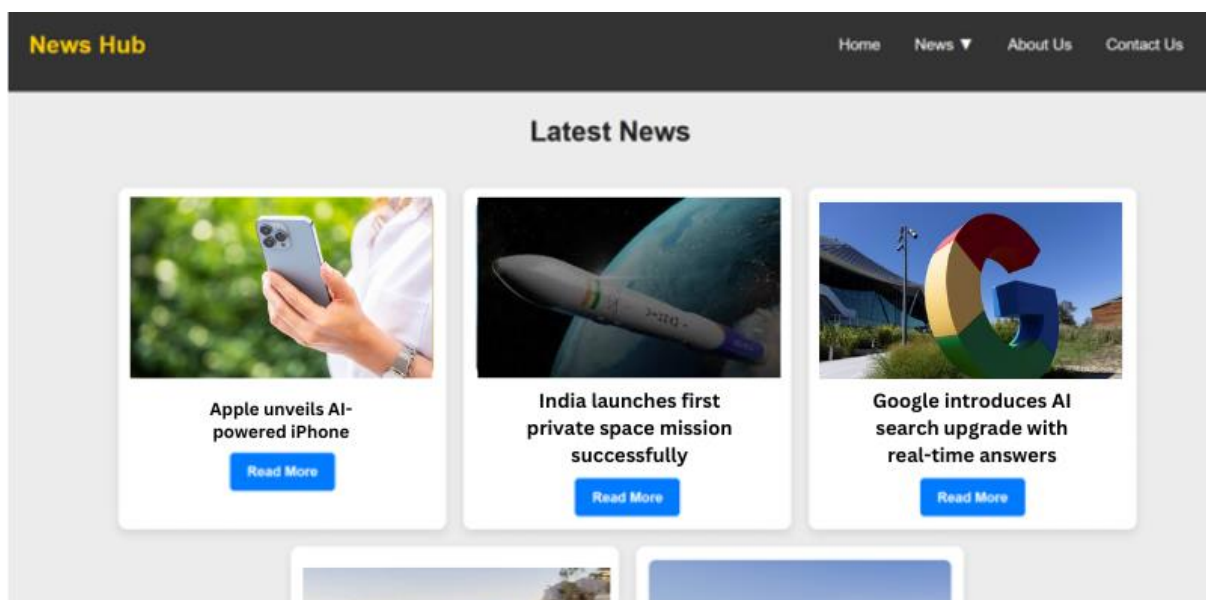

2. Footer Configuration

- The footer includes:
 - **About Me Section**
 - **Contact Me Section**
 - **Social Media Links**
- Ensured footer consistency across all pages by including it at the template level.

3. Homepage Implementation

- Used the **OOTB Teaser Component**.
- Displayed an award ceremony section for journalists with:
 - **Image**
 - **Title**
 - **Description**
 - **CTA (Call to Action)** linking to a dedicated award page.

4. Component Development

- Created a **Newsroom Component** to fetch and display news dynamically.
- The component retrieves all news articles under `/content/news`.

- Each news article is displayed as a **card** containing:
 - **Title**
 - **Image**
 - **News Details**
 - **Unique Content for Each Card**
 -

5. News Article Pages

- Created news article pages under the /content/news hierarchy.
- Each page is authored with:
 - **Title**
 - **Image**
 - **Text Component** (for article content)
- Ensured the Newsroom component fetches data dynamically from these authored pages.

India launches first private space mission successfully

05 March, 2025

In a historic milestone for India's space industry, the country successfully launched its first-ever private space mission, marking a new era of collaboration between the public and private sectors in space exploration. This achievement demonstrates the increasing capabilities of India's private aerospace sector and aligns with the government's vision of fostering innovation through its "Make in India" and "Atmanirbhar Bharat" (self-reliant India) initiatives. The mission also received technical support from ISRO (Indian Space Research Organisation), symbolizing a strong public-private partnership. Experts believe this successful launch will boost investor confidence and open the doors for more commercial missions in the near future, placing India among the key players in the global space economy.
